Why did you use Consumer Legal Funding?

On February 15, 2015, I was involved in a terrible car accident. The crash left me with an injured back, a severe concussion, and a totaled car. Unfortunately, the back injuries I sustained in the crash call for extensive physical therapy and will affect me for the rest of my life. As the trips to the doctor and physical therapy bills started to pile up, I didn't know where I could turn. Luckily, I found out about Consumer Legal Funding before it was too late.

How did Consumer Legal Funding help?

I am retired and Social Security wasn't enough to make ends meet. Consumer Legal Funding has helped alleviate the stress of my life being flipped upside down, and eliminated having to make the impossible decision to pay bills or pay for medical treatment. The funds I received helped me pay for physical rehabilitation sessions, replace my glasses that were broken in the crash, and cover other emergency needs. Consumer Legal Funding allowed me to sleep at night knowing that I could get up the next morning without facing disability or eviction.

What would have happened if Consumer Legal Funding was not available to you?

Without Consumer Legal Funding, I would be struggling to make ends meet. I would have to choose to pay my bills or to continue healing my back, which would have ultimately put me in a much worse physical and financial place than I am in now. At the time of the accident, I was completely overwhelmed and did not know how to handle the stress of the sheer volume of unforeseen expenses. Consumer Legal Funding helped me get my life back, and I am very grateful.
